

Sigafoose & The Gathering

September 23rd – 25th, 2010

Palm Beach, Florida

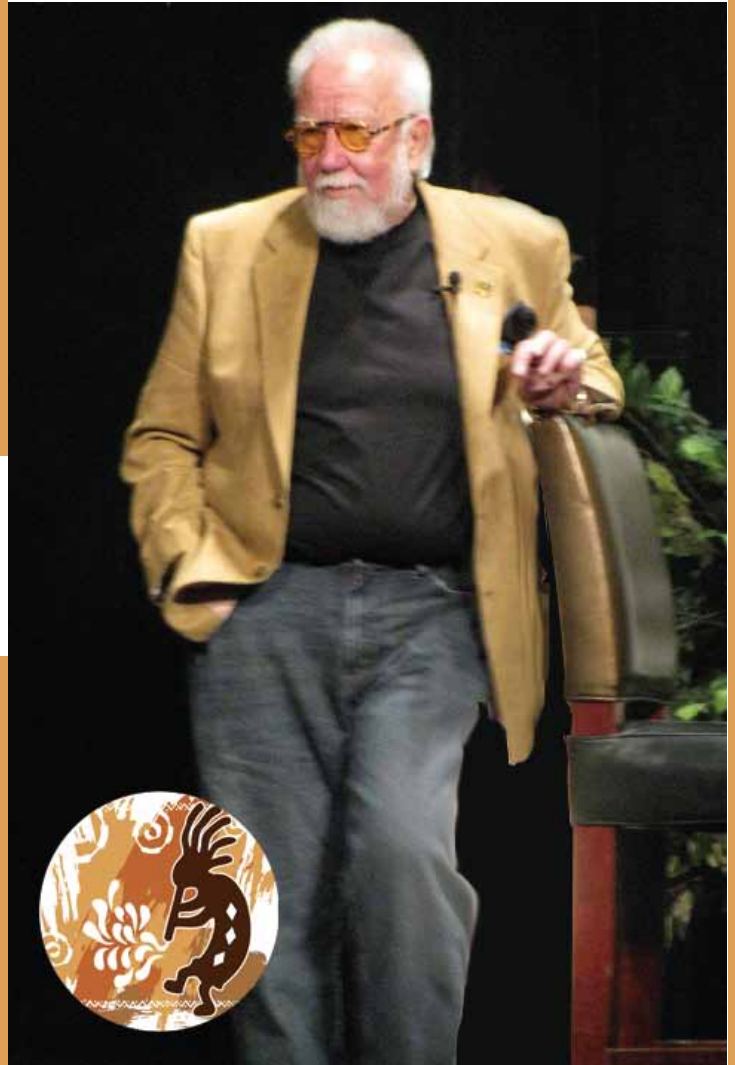

We know there is a lack of philosophy, and the means to get the public a better understanding of what we have to offer. Many chiropractors struggle with the above, and fail to fulfill their dreams that they had as students.

The following will be covered at the Gathering:

- Philosophy
- First and second visit
- A group report will be explained and covered

The report of findings allows commitment from the clients. It will give the patient understanding about many fears and hang up which will be cleared and removed.

Call now for registration
